Reviews of the *The Magic Flute by* Mozart,Luzzati

THOMAS

Very good recording and excellent performance. Feels as if you are in front of the stage. Has the spoken parts but they are easy to skip. June Anderson's Queen of the Night is powerful and confident.

Awene

These are worth the price just for the beautiful sketches and the music for the Piano is quite good. I own the entire series and I am very happy with my purchase.

Thank you

I bought this book because recently I recorded The Magic Flute opera from PBS (TV station), performed by The Metropolitan Opera New York (MET) in English. The channel was in high-definition. I'm dissapointed with the book because there was no English translation at all in the book but it didn't mean I could not enjoy the book. Because I have the book, I notice the English opera version (perform by MET) contains removed parts. For example, the overture was cut by half. Maybe it is to shorted the performance.

The book includes the lyrics but also the story of the "making".

My children (under 9) and I really enjoy listening to the 2 CDs

GAMER

Beautifully illustrated and narrated.

Dover scores are great and this one is no exception.
