A prize-winning novelist recounts his earlier years during the chaotic 1960s with his grandmother Grace, a social activist and church woman who hides deep pain about her secret past, friendships and betrayals, and her mental health.

Reviews of the *Grace: A Novel* by Robert Ward

Quellik

I really enjoyed this book. It gives a glimpse of the civil rights movement. It is also a story of the awkward adolescent finding himself by learning about his family history. I only wish it had been longer.

Watikalate

I had read Ward's first book, "The Cactus Garden", a real page turner, and thought that this author was a find. After finishing his second book, "Grace", I was happy to know that he's not a flash in the pan. "Grace" is an evocative story that warmed me. I hope that Ward's third is even better.

Winenama

Mr. Ward's portrayal of his grandmother was extremely vivid. It brought back a whole flood of emotions that I had not felt in many years. I, too, had a Grandmother that exuded the subtle power of his. I feel that this book was a gem of which more people should be made aware. A very interesting and compelling story.

Onath

Terrific book by one of the best writer's in America. Well worth reading, even if you don't normally read 'coming of age' books.

nailer

The book "Grace -- a fictional memoir" is a pleasant suprise indeed. I am amazed at the way the author captured the transfer and growth of Robert, and the way he evolved from his angst of adolescence. The character portrayals were vivid and touching. All-in-all, a very good book.
