Reviews of the The House with Green Shutters (Penguin Classics) by George Douglas Brown

Usishele

This book was not one I particularly cared for. Their main character wasn't too likable, and mainly concerned with being rich and looked up to.

unmasked

This appears to be an edition of the book that someone printed at their local Kinko's. The text is minuscule and there are page breaks in the middle of the pages (see picture.) It seems like someone took someone else's PDF of the book and did a bad job formatting it when they decided to print it themselves.

digytal soul

It was okay

Foiuost

Words are so small and close together can't read it.

Fog

Nice

Thorgaginn

The novel is a bleak and uncompromising look at a great man in a small town. Very well writtten.

Shakar

This book has an interesting story, and I really wanted to see this guy get his due. The writing style was so choppy with no real flow I wasn't able to finish the book. If you can handle the choppy style and 3rd person narrative I think this could be a very rewarding read.

I usually read a book to the end

regardless, however this one will be the exception very hard to get into maybe the style of the writing
