Tunnelling deep under one of the most holy cities in the world, an ambitious young archaeologist slowly works her way towards an unthinkable goal. Somewhere ahead is a chamber containing the collected fragments of an ancient scripture, a find of unimaginable significance. Meanwhile, halfway around the world, a covert military bunker holds a macabre secret. An elite special-forces officer seems to have been brutally murdered - but how, and more disturbingly, why? Any hope of solving the mystery rests on the grisly clues that remain. As the race to uncover the truth begins, a plot unfolds that could burn all of civilization in the fires of holy Armageddon. Those who live by the sword...

Reviews of the *Sword of God* by Chris Kuzneski

the monster

"Sword of God" by Chris Kuzneski is, in my opinion, quite simply an airport novel. The sort of book that you don't expect to win a Pulitzer Prize or make the list of enduring classics but a good solid page turner and adventure mystery with which to while away some time. The story follows Jonathon Payne and David Jones (D.J.) as they slip into Mecca to rescue an American archaeologist. It is sort of convincing and certainly fast paced and makes for a pretty good read. The fact that the archaeologist is a female doesn't hurt and the book darts around different places in the world as the story unfolds. Worth the money.

SmEsH

I enjoy Kuzneski's thrillers. As this is an early work I could forgive the use of what I consider an unfortunate use of a very sensitive subject as a plot device. Read in today's political climate the story in this book can easily be viewed as in poor taste but, again, the book was written several years ago so any criticism on that score would be unfair. That aside it is another entertaining, action packed page turner by Kuzneski.

Fek

The author takes the reader thru geography-history-culture and a few things we would all like to forget. The senerios the author develops allows the reader to focus on location,culture, and history in a manner that educates as well as entertains. The villians may become the heroes. One thing the author does well is to allow the reader to feel passion and disgust at the same time. For a first time reader this novel may have to much information to digest. For the experienced reader it is just right. It is not the fault of the author that the print is smaller than desired. Even if the reader uses glasses I suggest they give this work a go. Dave Hall

Auridora

This series by Chris Kuzneski is as violent as any adventure series, but he has many of the events mentioned available for readers to actually visit on his web site. Some of these places people don't think exist, but they do. I enjoyed all 5 of them.

Jorad

enjoyed it from the beginning to the end

Agantrius

Its a good read..once again I commute to Boston over two hours each way and have about an hour to read each day....

Centrizius

Just when you think the events can get a little worse worse -- they get a lot worse! All ends well for some.

Great book
