Reviews of the *Twenty-One Stories* by G Greene

Zeleeence

Bought this to re-read "Greek Meets Greek", which I remembered fondly from the 1960's when my book club read Greene's equally funny "Our Man In Havana". Enjoyed that story very much, but found the dour outlook in some of the other stories quite depressing.

Nilador

Absolutely loved it and would definitely recommend. There's not much more I can say beyond that.

Quphagie

I read Graham Greene's collection of short stories after reading "The Power and the Glory" and "The End of the Affair" and before I read "The Quiet American". I think they were largely quite good with some very solid stories. They range from the appalling in "The Destructors" to the very amusing such as "The Blue Film". However, I still prefer the author as a novelist; "The Heart of the Matter" and "The Power and the Glory" in particular.

Alexandra

This was an amazing work of literary art. Normally I am not a huge fan of short stories, but this collection was excellent. Each story is just long enough to get to the point and then haunts you after you read it. There is always that final moment summing up what actually happened to give you the chills.

Virtual

Bought it and ended up finishing it in 3 days. Really interesting and every story is unique and different. Could have finished it earlier if I would have or my not gone to my classes. Good book overall. Recommend it to anyone who likes reading.

Marinara

A Greene fan, this is a good assortment of his writing, it will never go out of date.

Conjuril

The greatest writer of our time, Graham Greene, gives us the the best short stories of our time.

Proceless

Awesome
