George suddenly finds himself the darling of a New York television company where plans are made to turn him into a singing, guitar-playing teen-age idol.

Reviews of the **Rich and Famous: The Further Adventures of George Stable** by James Lincoln Collier

MOQ

Being a long time fan of "The Teddy Bear Habit", I was thrilled to discover this sequel. The story was fast-paced and funny, although there were a couple of inconsistencies with the original tale. I never knew that George's father was seeing a woman at the office, so this must have been a recent development in the year between the two stories. Also, I found myself wishing for more scenes with George's father and Stanky and felt the ending was a bit abrupt without them. Funny story as was the first, since George never seems to know when to tell the truth.

James Lincoln Collier tells lively tales about realistic kids in believable predicaments. His books are still fairly timeless considering that they are more than thirty years told. Parents should explain why every adult in the books smoked back then.

Cobandis

If you haven't read the first book, this one stands on its own very well. However, I really enjoyed the first book a lot more. "Rich and Famous" was more like a copy of the first book, same general beginning, same plot twists, etc. It was fun as a break from real life for a few hours, but it definitely was not the original story "The Teddy Bear Habbit" was.

In case the editorial review wasn't enough detail, here's my summary:

George Stable is back! After his last adventure, he's now a regular client of Camelot Records. He doesn't expect to be rich and famous, but it's fun to hope he will be. Just when Woody finds him an idea that is "on fire, baby!" his father goes on vacation, sending George upstate to live with relatives. George has to come up with a more and more complicated plot to escape his relatives and continue his career in show biz.
